

Unlocking Mental Well-Being for K-12 Students

Meet Student 365

When life throws curveballs, students need access to immediate and confidential support.

Recent statistics reveal a critical state of student mental health and underscore the urgent need for accessible and effective mental health support for our youth. Call A Doctor Plus, in partnership with National Telehealth Solutions, provides Student 365, a comprehensive virtual counseling program designed to help students, their parents and potentially staff navigate challenges and thrive.

Critical State of Student Mental Health

of students experience persistent sadness or hopelessness

of all lifetime mental health conditions begin by age 14

seriously consider suicide

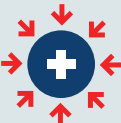

have attempted suicide

Student 365 is designed to

Increase student engagement with mental health support

Provide seamless care for diverse mental health needs

Improve the health and well-being of young people

Mitigate risks and support school communities

School districts across the country are experiencing a new standard in mental wellness for their students backed by **comprehensive support, enhanced access and key features** including:

Personalized Digital Hub

A client-specific and customizable digital portal for seamless access to care.

Family-Focused Support

24/7 crisis line and in-the-moment support for students and parents—ensuring no one feels alone.

Complementing Existing School Plans

We work with your school counselors to complement their programs and provide backup support during breaks and after hours.

Prioritizing Young Minds

Dedicated Pediatric Behavioral Health services, including psychiatry for ages 18 months to 17 years old, with 12 therapy or psychiatry sessions included.

Expert Guidance

Confidential, professional counseling sessions for a wide range of concerns, including anxiety, grief, depression, marital issues, and stress. Includes 8 virtual or in-person therapy sessions per person per incident.

Funding Made Easy

Our dedicated team collaborates with your district to secure funding within 30-60 days, making our program accessible to most schools. It's non-budgetary and hassle-free!
